## Newsletter

September 2021

We shall not be attending the Cannes and Monaco Yacht Shows this September. The logistical hurdles due to C.19 and the associated uncertainties have led us, reluctantly, to this decision.

We have attended every one of these shows for in excess of ten years and shall miss renewing old acquaintances and making new ones. On the other hand the liver will be much relieved.

However, we are still here providing our clients and fellow professionals with the comprehensive range of services that we provide to the Buyers and Owners of large yachts and which you are familiar with.

So far 2021 has kept us fairly busy and it includes the completion of the Project Phi builds (see [www.boatinternational.com/yachts/news/projects/phi-superyacht-royal-huisman](http://www.boatinternational.com/yachts/news/projects/phi-superyacht-royal-huisman)) and ongoing preparations for two new builds at 65 and 170m.

Not surprisingly Brexit has also kept us busy on various transactional and VAT issues. Red Ensign registrations have also developed a new lease of life post Brexit.

So whilst missing the social elements of the Shows we are still available to help either on the telephone, zoom or even face to face, either in London or other convenient locations particularly when international travel becomes less complicated.
